

Vidyo on **Kubi** iPad Set-up

Kubi meaning ‘neck’ in Japanese, is a portable robot that makes video conferencing more engaging by giving remote participants the power to pan, tilt, look around and interact during video calls. These instructions show you how to set up and use **Kubi** with **Vidyo**

Step 1: Install the Vidyo on Kubi iPad app from the Apple App Store. Note: Vidyo requires a Vidyo account (Sign up for a free trial: <https://freetrial.vidyo.com/web-free-trial/>)

Step 2: Login with your Vidyo portal and login credentials

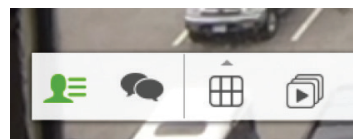

Step 3: After login, the Kubi will automatically connect to the iPad and it should display ‘Kubi Connected’ in the lower left of the App and the Kubi light will turn blue

Step 4: Join a Vidyo meeting room and any remote participant will be able to control the Kubi

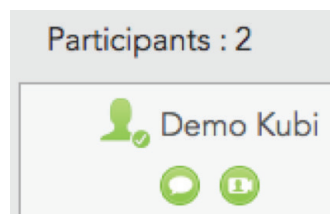

How to remotely control kubi in a Vidyo meeting

Step 1: Join the Vidyo meeting from VidyoDesktop or VidyoMobile

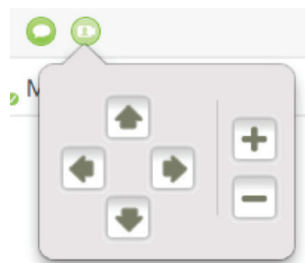

Step 2: Click Participants list

Step 3: Under the Kubi participant, select camera control

Step 4: Control your view by using the arrow keys
